

Dear Parents and Carers,

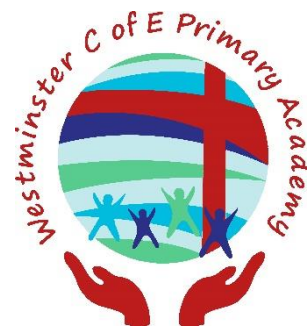

I am delighted to introduce our **Science Week 2021** from Monday 1st March to Friday 5th March.

It will be a very action-packed week with a range of whole family activities which can be completed at a time to suit you. The activities fulfil the requirements of the National Curriculum expectations for children at their own age range stage.

Science Week 2021

A full range of activities have been produced to enable children to have a science week at home. We will provide all the resources needed to complete the activities and these will be delivered to your home this week. All activities and a timetable will be uploaded onto the school website by Monday. All links will be provided and all activity sheets printed for you.

	AM Lesson	Pre-Lunchtime Activity	PM session
Monday	Video lesson and activity linked to gaps from previous half term / last lockdown – individual to children’s year group.	Video lesson and activity linked to Animals, including humans for all children to work on together.	WORLD BOOK DAY ACTIVITY – Non-Fiction – Famous Scientist – join in with the video to read the book and complete the activity.
Tuesday	Video lesson and activity linked to gaps from previous half term / last lockdown– individual to children’s year group.	Video lesson and activity linked to Animals, including humans for all children to work on together.	Family Fun Science Afternoon – National Curriculum science for all the family.
Wednesday	Video lesson and activity linked to gaps from previous half term / last lockdown– individual to children’s year group.	Video lesson and activity linked to Animals, including humans for all children to work on together.	Family Fun Science Afternoon – National Curriculum science for all the family.

	AM Lesson	Pre-Lunchtime Activity	PM session
Thursday	Video lesson and activity linked to gaps from previous half term / last lockdown – individual to children’s year group.	Video lesson and activity linked to Animals, including humans for all children to work on together.	Family Fun Science Afternoon – National Curriculum science for all the family.
Friday	Video lesson and activity linked to gaps from previous half term / last lockdown – individual to children’s year group.	Video lesson and activity linked to Animals, including humans for all children to work on together.	Friday Challenge Activity (watch the Friday worship at 9.45am to help you complete this activity)

When your child completes each challenge, they can mark it off on their Science Week Passport. When they return to school, they must bring their completed passport back with them.

I hope you and your child enjoy the range of activities – particularly as there are many non-screen based ones!

Yours sincerely

Mrs R Shoulder
 Science Lead
